

Graduate College
Chancellor's Graduate Research Fellowship Recipients - Fall 2010

Last	First	Program	Department	Title	Disciplines
Bartlett	Laura	Hispanic Studies	Hispanic and Italian Studies	Adjectives that aren't: ERP correlates to Spanish adjectives	Linguistics, Neurology, Psychology, Spanish
Berrill	Margot	Art History	Art History	Kitchen Humour: Feminist Video Art and Pop Culture	Art History, Gender Studies
Isgor	Zeynep	Economics	Economics	Economics of Physical Activity: Determinants and Mechanisms	Economics, Genetics, Kinesiology, Public Health, Psychology
Khatib	Fatima	BioPharmaceutical Sciences	BioPharmaceutical Sciences	siRNA-SSMM-VA a Targeted Nanomedicine for Liver Fibrosis	Bioengineering, Cell and Molecular Biology, Organic Synthesis, Pharmaceutical Sciences and Formulation Research
Marsh	Katherine	Graduate Education in the Medical Sciences	Microbiology and Immunology	The Kinetics and Regulation of Hepatitis C Virus Protein Expression	Mathematics, Virology
Myung	Ja Hye	BioPharmaceutical Sciences	BioPharmaceutical Sciences	Effective Separation of Circulating Tumor Cells (CTCs) by a Biomimetic Device	Biochemistry, Bioengineering, Biopharmaceutics, Chemistry, Clinical Pharmacology, Medicinal Chemistry
Nikaj	Silda	Economics	Economics	Hepatitis B Vaccine and Teen Sexual Behavior	Economics, Public Health
Parsons	Anne	Work, Race, and Gender in the Urban World	History	"Our Brothers' Keepers: Mental Hospitals, Prisons, and the Institutionalization of Twentieth Century America"	African American Studies, Criminal Justice, Disability Studies, Gender and Women's Studies, History
Pearson	Ryan	BioPharmaceutical Sciences	BioPharmaceutical Sciences	Morphological study and assessment of self-assembly characteristics of novel polyester dendron-based amphiphilic copolymers for drug delivery	Bioengineering, Organic Chemistry, Pharmaceutics
Sahni	Sumit	Medicinal Chemistry	Medicinal Chemistry and Pharmacognosy	Anti-metastatic effects of nitric oxide (\bullet NO) in triple negative breast cancers (TNBCs).	Chemistry, Molecular Biology
Song	Yang	Pharmacognosy	Medicinal Chemistry and Pharmacognosy	Development, Implementation and modeling of metabolism based bioassay system in antituberculosis drug discovery	Drug Metabolism, Microbiology, Statistics
Sundermann	Erin	Psychology	Psychology	Genetic Predictors of Cognition in Women with HIV	Genetics, Immunology, Neurocognition
