# NEW International Travel Safety Policy

“This international safety and travel policy governs all University Sponsored [NOT personal] International Travel at UIC by UIC faculty members, staff and students. Its purpose is to ensure faculty, staff and students have essential information to make informed and safe decisions about International Travel. In addition, this policy requires that the relevant departments or units approve all students before they embark on International Travel, including travel to any countries with a Travel Warning. Students are not allowed to travel to countries for which an Evacuation order has been issued by the U.S. Department of State.”

# NEW International Travel Safety Policy

“All UIC students who travel abroad must enroll in a UIC travel roster and obtain the [University of Illinois System’s comprehensive insurance plan](#). All faculty and staff are encouraged to enroll in the portal and to obtain the same insurance policy [paid by UIC] or one that has the same or higher levels of coverage. All faculty or staff traveling with UIC students must enroll in the University’s International Travel Safety portal and the System’s comprehensive insurance plan.”
